

Notes
1.The product size may be different from the picture size.We will not in from as we modify the size.We will not be responsible for expired picture.
2.Please contact with the suppliers for the specifications of projects.
3.The colour of products in this catalogue may be different from the products.Please refer to the actual products.

Samiyah[®]
SANITARY WARE

SUS 304

STAINLESS STEEL FAUCET

LEAD-FREE BETTER LIVING

We are unremittingly seeking for technical and management progress and to better meet the requirements of consumers to family and sanitary ware products.

We are actively innovative, brave to make investment and design the latest products of fashionable styles keeping pace with the world, so as to achieve diversified product series. While we have realized leading technology and product innovation,

we have also implemented varied customer services.

During OEM processing, we will carry out specialized design, processing and production according to market and customer requirements to enhance our competition advantages.

SUS 304

High quality stainless steel

IT IS DURABLE AND DURABLE

High nickel SUS 304 stainless steel material, corrosion resistance, no rust, the more bright, bright and clean as new, Stainless steel precision casting, surface such as a sand hole to avoid sand casting, water leakage phenomenon.

No lead in environmental protection

ENVIRONMENTAL PROTECTION DOES NOT LEAD TO LEAD, CARE OF HEALTH

Adopt high quality high nickel sus stainless steel material, do not own lead, care the water outlet, protect the family healthy water environment.

10 YEAR

10 years quality assurance

50M

High quality ceramic spool

HIGH - QUALITY VALVE CORE

The original customized valve core, the valve core is the heart of the faucet, the switch 50 million times no leakage, in the home of three restaurants, dinner kitchen faucet water switch 30 times for example, can be 45 years or so.

Gentle washing

GENTLE WASHING, STRONG WATER - SAVING

Blister, using the original Swiss neu, using the air circulation, the selection of excellent, durable, effectively filter all kinds of impurities, out of the shui rou and, not spatter, fully feel the comfort with water, and can effectively save water, compared with the common faucet, the highest water saving about 30 %

50

Half a million times, no drip

Low-carbon water-saving function
